

Visitor Proof of COVID-19 Vaccination Policy

Scope and Purpose

The Resort Village of Kivimaa – Moonlight Bay is committed to maintaining the health and safety of its workplaces and to protecting its employees from the hazards of COVID-19.

The purpose of the Visitor Proof of COVID-19 Vaccination Policy (the “**Policy**”) is to reduce the risks of COVID-19 in the workplace and to provide a safe environment for employees and visitors accessing and using the Office. COVID-19 is a highly contagious communicable disease. It is critical that the Resort Village of Kivimaa-Moonlight Bay use all available tools at its disposal to ensure that its workplaces are as safe as possible. In that regard, federal and provincial health authorities have indicated that the COVID-19 vaccines approved for use in Canada are, in combination with health and safety precautions, safe and effective ways to reduce the chances of acquiring and spreading COVID-19 in the workplace and to reduce the chances of individuals experiencing negative health outcomes should they contract COVID-19. Individuals who are not vaccinated thus pose a greater risk to their personal health and safety and to the health and safety of those around them.

Because COVID-19 vaccines reduce these risks, the Resort Village of Kivimaa-Moonlight Bay encourages all visitors to the Office – other than any for whom it is not medically recommended – to obtain COVID-19 vaccinations at their first opportunity.

As a result of the COVID-19 pandemic, individuals who are not vaccinated pose a greater risk to their personal health and safety, as well as the safety of those around them at the worksite. Accordingly, this Policy implements certain requirements regarding the COVID-19 vaccination, such that the risk of transmission at the worksite is reduced.

The Policy will be reviewed on a regular basis and amended as required as the information, data, public health guidance and provincial legislation regarding the COVID-19 pandemic changes.
